

Report of
Helwan Factory
Project

*This project is a perfect
example for integrated
project truly, due to it
included variety works,
such as:*

*Civil works, rehabilitation
of main station for MV
distribution*

*make a protection against
fire, rain, & humidity*

*installation of a full
lighting, air conditions,
doors & windows
against fire.*

Add to that:

*Electrical works, like:
Dismantle of old panels,
& installation of new
panels instead of them.*

Also, we provided all necessary designs as per standard specifications, & get adoption them by a specialized consultant office.
